PREFACE

THIS volume, upon which my father was engaged at the time of his death, is a revised and extended reprint of previous volumes recording British Proclamations. These earlier editions, which were little more than handlists, have become scarce, and we have been unable to meet frequent requests for copies.

Accordingly, my father decided to re-issue the original work, adding fresh entries and a full and comprehensive index. The late Mr. J. P. Edmond together with Mr. Henry Guppy, keeper of the Rylands Library, were largely responsible for the original issues, their work being incorporated in this volume.

We furthermore owe our thanks to Mr. Arthur Phillips, who is responsible for preparing the analytical index, which I trust may prove of material value to scholars and historians.
